#WasteLess

Curriculum Links

The background of the slide features a serene landscape. In the foreground, there is a vast field of bright yellow flowers, likely rapeseed, stretching towards the horizon. In the middle ground, several wind turbines are visible, their silhouettes softened against the light. The sky is a gradient of colors, from a pale blue at the top to a warm orange and yellow near the horizon, where the sun is setting or rising, creating a soft glow.

Social Studies Grade 4

Outcome 4:

Students will examine the relationship between humans and the physical environment

Competencies 4-6 Citizenship:

Participate in activities that promote environmental sustainability and begin to understand the impacts

Science Grade 4

Outcome 2: Students will investigate the interrelatedness among animals, plants, and the environment in local habitats

Outcome 2 Concepts: Human choices and actions impact the environment, with a focus on Aboriginal perspective of interrelatedness
